2022 Spring Webinar Programme for Trainers

Understanding Differential Attainment and How Trainers can Help

12:00pm—1:00pm on Tuesday, 26th April 2022

Facilitated by: Christine Henderson, Professional Support Unit Case Manager, Health Education and Improvement Wales

This webinar will focus on recognising the gap between attainment levels of different groups of doctors, understanding the detail around the patterns of differential attainment and development of responses. The webinar will enable participants to understand:

- What differential attainment is and why it is important that we recognise it
- What signs could indicate that a trainee may require additional and tailored support
- The specific, practical support that can be offered by trainers on the ground.
- How to start a conversation with individuals, particularly if they are not forthcoming or do not recognise that they may require additional support
